Cameron came from McMaster University (Canada) to study Biotechnology at UAL in 2019. "I was part of a team focused on specific issues. In my favourite project we synthesized DNA, analyzed its sequences and figure out which traits from which nucleotide polymorphisms produced certain traits. Say, a taste in the zucchini."

Lediana came from the European University of Tirana (Albania) to study Business at UAL in 2020. "We are very diverse. In Skenderbe's Square there is a mosque, an Orthodox and a Catholic church so close that you can take a picture of all of them together. If you are open to different cultures, you will enjoy it a lot."
